Your Child's Results

Thank you for using the Horlicks Growth+ Height & Weight Calculator to check on the healthy growth of your child. Your results are below. Make sure you come back another day to check on your child's progress and visit a pediatrician if you want to know more about your child's development.

Your Child's Growth Chart

Height:

Weight:

*Average is equal to the 50th Percentile.

— Your Results

What does percentile mean?

Percentiles are measurements that show where a child is compared with others. For example, if a boy's weight is in the 10th percentile, that means that 10% of boys of the same age weigh less than he does, and 90% weigh more.

Please always consult a pediatrician before making any changes to your child's diet or lifestyle. Horlicks Growth+ is a nourishing beverage to be included as part of daily balanced diet.

Catch Up On Lost Growth

Find out how Horlicks Growth+ is clinically proven to increase height & weight in just 6 months.
